# Upgrade to Chartered Fellow

## Application guide

Please read the following guidelines before completing an application form. If the guide notes raise any questions around your eligibility please contact [registrar@iod.org.nz](mailto:registrar@iod.org.nz)

You must have been a member of the IoD for at least three (3) continuous years immediately prior to making an application for Chartered Fellow.

Applications are considered by Council six (6) times a year. Incomplete applications will be returned to the candidate.

Council will be the sole arbiters of a member's suitability to be made a Chartered Fellow. If a Chartered Fellow ceases to be a member of the IoD then they will no longer retain their status as Chartered Fellow. If they later re-join the IoD then they must reapply for Chartered Fellow status, following a further three (3) years as a member in good standing.

See p.4 for full criteria from Annex A of the Constitution of the Institute of Directors in New Zealand (Inc).

See p.5 for the Charter

### Note 1: IoD Company Directors' Course (CDC) and assessment

Chartered Members who have passed the Chartered Member assessment (or equivalent) are required to demonstrate a total of five (5) years elapsed time in entities of substance. See note 2 below. Please note the course and assessment name (CDC or equivalent), date completed and location.

If you believe you have completed an equivalent course or assessment please contact the Registrar for approval of equivalency [registrar@iod.org.nz](mailto:registrar@iod.org.nz)

Some IoD members have been practising directors for some length of time and have not completed the CDC. In this case the option to apply for Recognition of Prior Learning (RPL) in place of the CDC is available.

### Process and criteria requirements when applying for RPL

1. The candidate must have at least five (5) years elapsed time on two or more boards of directors, one (1) of which must meet two (2) of the following three (3) criteria:

- a. Assets >\$5m
- b. Turnover >\$10m
- c. Staff >15

### Note 2: Elapsed time

The purpose behind this criterion is to ensure that more than ten (10) years of service (or [5] years, see note 1 above) have been completed in entities of substance.

Examples of situations that would qualify are:

- Five (5) years' service in one company followed by five (5) years' service in a second company (not necessarily consecutively);
- Ten (10) years' service in one company, and three (3) years' service in another (whether or not the periods overlap).

Examples of situations that would not qualify are:

- Five (5) years' concurrent service in two companies;
- Seven (7) years' service in one company and five (5) years' service in a second company over a nine (9) year period of time.

### Note 3: Qualifying organisations

- An entity of substance must meet the minimum of two (2) of the three criteria below:

Value of assets	>NZ\$10 Million
Turnover	>NZ\$20 Million
Staff numbers (FTEs)	>30 (FTEs)

In applying the organisation of substance criteria Council are guided by the following principles:

1. To qualify as an organisation of substance the *structure and operation* of the entity's board should meet all of the following criteria:
  - The entity's board is an autonomous body that is fully accountable for the strategic business direction and corporate governance of the entity and makes the decisions that determine the entity's prosperity and integrity
  - The board comprises a minimum of four (4) directors, with at least one (1) non-executive director who is also independent (meaning independent of management and free from any business or other relationship which could materially interfere with the exercise of their independent judgment)
  - The board has formal meetings at least six (6) times per annum.

If an applicant wishes to include in the list of qualifying directorships a board that does not meet the above criteria, he or she must explain how the board's structure, operational and governance characteristics demonstrate its autonomy and full accountability.

2. That *executive directorships* be counted for not more than three (3) of ten (10) [or 2 of five] years elapsed time.

3. That directorship of a *subsidiary* only be included where the subsidiary meets the substance criteria independent of the parent **and** the board of the subsidiary has final accountability.
4. That directorship of a *partnership* only be included where that board includes an independent director.
